Another regime  
Another machine  
Another regime  
Another machine  
Pulling the wool over your eyes  
Freedom living in disguise  
Another regime  
Another machine  
Nero, lenin, mao tse-tung  
The perfect state for everyone  
From hieroglyphs to printed page  
The same agenda sets the stage  
Another regime  
Another machine  
would it be the end of the world  
if we could all agree?  
Bait-and-switch before your eyes  
Revolution in disguise  
Brave new world behind the gun  
A perfect state for everyone  
Another regime  
Another machine  
would it be the end of the world  
if we could all agree?  
Manufacture enemies  
While saving someone else  
Camouflaging tyranny  
History repeats itself
