

State Of Being "No One"

Visit "[No One](#)" on MotoLyrics.com

cover your eyes and cover your ears
dont taste life for 21 years
in your yuppie dream world you sit at home
watching tv there all alone
no one really dies like on tv
we'll all live 'till eternity
i'd say it's time to wake up and see
what's really going on, on your planet's dream
wake up!
they're gonna make you no one
they want you no one
they're gonna make you no one
they want you no one
they're gonna make you...

they're gonna take you
no one (no identity)
no one does drugs they aint real
and from your house we never will steal
and all hungry people eat big meals
and companies always make fair deals
if you weren't so blind you'd understand
life is real: look at your hands
raise for raise: higher wage in time
if you screw your boss sex is divine
see no evil
hear no evil
speak no evil
no evil : no evil : no evil!
