

Deathspell Omega "Lethal Baptism"

Acid streams from the Chalice over the newborn body,
Pain rises like deadly waves of sulphur
And it cries with despair and supplicates
As it dissolves its sweet flesh
See, Satan...Lethal Baptism for all children!
Hopes for future generation disappear
As the acid of our hate devours
The last germs of their life
Bools of bloodmixed acid on the ground,
Another soulripped out of it's spell
Primeval innocence offered to supreme Lord
See, incarnation of all Vices
See, lethal Shadow
Life-corrupting Abomination
And cause of total Degeneration...
Lethal Baptism!
Lethal Baptism!
