Born of the void as a female human,  
Sha was full of innocence and weakness  
(Lust...Pain...mother of perversion)  
Her own face soon betrayed her  
It was time for demoniac vengeance  
(Lust...Pain...mother of perversion)  
Then came her suicide to rejoin Satan,  
Her Father that taught her how to Fight the plague  
(Lust...Pain...mother of perversion)  
Now she is the mistress of sin  
Debauching the humans one by one  
They try hard to reset temptation  
Sometimes try praiyng gods (symbols of their  
feebleness)  
Her hatred is almighty and ubiquitous  
Always striking with a sweet brutality  
Victims are always chosen at random  
The race she once belonged to shall perish  
(Lust...Pain...succubus of all vices)  
She spawned sins and blasphemies  
Incest, sodomy, rape,...her depraved mind created  
them all  
(Lust...Pain...succubus of all vices)  
The mystical whore will penetrate everybody  
Purity is scorned even if mankind keeps their dying  
faith  
(Lust...Pain...succubus of all vices)  
She vermins that the vermin has stopped growing  
At kind of majestic infaricide (?)  
Men and womenkilling each other  
In the name of an invisible force  
Her spirit is a vagina which procreated the Evil  
Our Father Satan gave ger an immortal name  
Lilith.
