Kill myself, nothing left, I feel this  
Slowly I'm put to death  
I've seen it all no regrets  
Mental regress, chemicals used in excess

Die old, breathing cold  
Cries heating, broken lies gets all under  
Murder click, murder click  
Murder click, murder click, let's begin

Overdrive, let's go  
Come alive, let's go  
Decimator, isolaytore

Track the coming attack  
Break your broken up back  
Slow recirculation  
Resilient

Take the time to do it  
Take the time for tuning  
Chew it up, swallow it down  
Will you unhinge me?

Kill myself, nothing left, I feel this  
Slowly I'm put to death  
I've seen it all no regrets  
Mental regress, chemicals used in excess  
Die old, breathing cold  
Cries heating, broken lies, gets all under  
Murder click, murder click  
Murder click, murder click, let's go

Come alive, let's go  
Decimator, isolaytore

Mend the physical bend  
Try to smooth the grain out  
Grind it 'til it's shallow  
Take the sedatives

Make sense out of nothing

One of many talents  
Sew it up, put it to rest  
To find a balance

Die old, breathing cold  
Cries heating, broken lies, gets all under  
Murder click, murder click  
Murder click, murder click, let's go

Come alive, let's go  
Overdrive, let's go

Overdrive, let's go  
Come alive, let's go  
Decimator, isolaytore
