

## Static-X "Shadow Zone"

I get we gotta run  
Make me take it  
Take out the big one  
I can't forget I cannot  
See infect me

Enter the shadow zone  
I like it, slice it  
This is your own world  
Naked, resurfacing

Shadow Zone  
I come to realize  
That I'm not home now  
But you can't see inside me  
Shadow Zone  
If I can't forget just

Leave me alone now  
It's time to go out, shut down

I'm sick of this mutation  
All of this masturbation  
It becomes my salvation  
Taking it, taking it

I'm dead inside, my head my mind  
Right way wrong way, this cage is my rage  
My cord ripped out, cry out for help  
Call this my own
