(Don Reid - Debo Reid)

Seasons come and seasons go
Summer nights to winter snow
But even time could never change
The love I have for you.

I've been rich and I've been poor
I've done with less but never more
'Cause I have never been in love
Like I'm in love with you.

Life is only there for the living
When love is there for the giving
There may be so I've been told
Rainbows in the pot of gold.

But gold and rainbows can't compare
Since I fell in love with you.

--- Instrumental ---

Life is only there for the living
When love is there for the giving
Seasons come and seasons go
Summer nights to winter snow.

But even time could never change
The love I have for you.

Since I fell in love with you...
