(Don Reid - Harold Reid)

I hear stories and rumors going round about you  
All our good old friends wanna make sure I do  
I know who you been with and how you feel when you're  
through  
Those stories and rumors are becoming to you.

If you don't like where you've been going  
Then you know where you could be  
If you don't like what you're becoming  
You could be coming to me.

--- Instrumental ---

There's no one who knows you better than me  
You need love more than loving and you think he could  
see  
When you get tired of playing like little girls all do  
You'll be coming home to daddy and I'll be waiting for  
do.

If you don't like where you've been going  
Then you know where you could be  
If you don't like what you're becoming  
You could be coming to me.

If you don't like where you've been going  
Then you know where you could be  
If you don't like what you're becoming  
You could be coming to me...
