To all the bands that paved the way.  
Thank you for the hardcore memories.  
We all left our mark on the scene.  
Now we are part of hardcore history.  
East to west and everywhere in between.  
We are all part of this hardcore family.  
Coast-to-coast this is a family.  
Fresh blood a new breed in the scene.  
Young bands with heart helps the scene breathe.  
Keeps it alive hardcore never dies.  
Pick up where we left off,  
The rest comes from inside.  
Stay true to yourself and follow your heart.  
Give back to the scene and truly live hardcore.  
Hardcore never dies.
