I hear you want to be civil right now, yeah right  
You want to compromise with me, yeah right  
You want to opt out of everything, that's right  
There's no conversation with you tonight  
Because every time, every time, it's a fascination with  
this hole of mine  
Every time, every time, it's a public debate about my  
backside  
Do you want to know how it feels to run?  
To be afraid of going outdoors, oh fun!  
Mother mary, holy christ, "we're the mothers who will  
put it right"  
Mother mary, holy christ, "We're the fathers who are  
always right"  
I hear that they are coming for me tonight  
They're really going to finish me off, that's right  
And they seemed so different from you  
I think it's fair to say you teach them just what to do  
Mother mary, holy christ, "we're the mothers who will  
put it right"  
Mother mary, holy christ, "We're the fathers who are  
always right"  
Oh mother mary, holy christ, poking around in your  
mind  
Mother mary, holy christ, "judging you is a basic right"  
Oh mother mary, holy christ "We must do what is right"  
Oh mother mary, holy christ, it's a public debate about  
my backside!
