Create Your Own Fate  
Steadman  
Revive  
If you say nothing will be coming your way  
What may come, you chase it away  
Create your own fate  
If you smile  
Something in the worlds gonna change  
Something in you wont be afraid  
Create your own fate  
Will you be missed when you are gone?  
If something shifts, do you take too long  
Youre feeling so misunderstood  
Its like you're an endless ocean  
You can pretend, but it's no good  
You find you're wasting your time  
And doesnt'tt feel good?  
On a plate  
Nothing comes to us on a plate  
No thank you, I already ate  
Create your own fate  
Will you be missed when you are gone?  
If something shifts, do you take too long?  
Youre feeling so misunderstood  
Its like an endless ocean  
You can pretend, but it's no good  
You find you're wasting your time  
And doesnt'tt it feel good?
