"Passing Through"

There's a place near by the Loan-Au
Where the wine is always strong,
And the old man lies sleeping
In the warm sun.

But I am only passing through,
And have no time to spend with you.

You can feel the firing rhythm
It's been falling through the air.
Like dread, sun never changes
It's always there.

You know I'm only passing through,
Have no time to spend with you.

There's a girl that once I loved
From memories I re-call.
Days I've spent beside her -
Nights as well.

You know, I'm only passing through,
Have no time to spend with you.
