

Steadman "Wave Goodbye"

Visit "[Wave Goodbye](#)" on MotoLyrics.com

Life is one big stage
And it's all the rage
To go walking out
To take a bow

See me roam
See me climb
If I leave here now
I can make good time
See me fall
See me rise
Grabbing one last look
Then I wave goodbyeÂ...Â...Â...Â.....(goodbye)

Light shines on my face
But I need my space
I've been feeling blue
How bout you?
Now this bird has flown
Like I've always known it would
Maybe someday soon
You'll be flying too

See me roam
See me climb
If I leave here now
I can make good time
See me fall
See me rise
Grabbing one last look
Then I wave goodbye
You try you try to hold on
Too late
Too late I'm gone

Life's a stage
It's all the rage
The curtains raised
I'm coming out

Life's a stage
The curtains raised

I'm coming out
Life's a stage
The curtains raised
I'm coming out

See me roam
See me climb
If I leave here now
I can make good time
See me fall
See me rise
Grabbing one last look
Then I wave goodbye

You try you try to hold on
Too late
Too late

You try you try to hold on
Too late
Too laaaaaaaaaaaaaate

It's too late I'm gone
