You better have an easy living to show them  
So waste your time with peace and love  
You better run if the evil is near you  
He shows no mercy don't show no fear

Heaven can wait if the god is waiting for me  
Heaven can wait the heavy metal god will wait

Heavy metal god the one and only  
Heavy metal god let me be  
Heavy metal god he will show me  
Heavy metal god set me free

You better face the reality  
There is no god with wings of steel  
A metal chorus symphony  
Up in the sky makes it real

Heaven can wait if the god is waiting for me...

Heavy metal god the one and only...

A masquerade behind your face  
We need a life and we wane be free  
They crucified the evil him self  
The metal god will be free

Heaven can wait if the god is waiting for me...

Heavy metal god the one and only...

Heavy metal god the one and only...

Heavy metal god !
