Hold that train
Until everybody is inside.
Hold that train
Until everybody is inside.
The weather is fine
We all want a ride.

We want it moving
When everybody is on board.
We gonna get it moving
When everybody is on board.
We will try and see
Where the catching is all.

Hold that train
Until everybody is inside, yeah.
I want you to hold that train
Until everybody's is inside.
The weather is fine
We all wanna ride.

Take it anywhere you want it to go.
Take it down to the garden.
Ride around, we gonna ride around.
Shake it all down, shake it all down!

Hold that train!
I want you to hold that train
Until everybody is inside.
I want you to hold that train!

Hey now! Hold that train!
You gotta hold that train!
You gotta hold that train!
Hey, hold that train!
