I can see the darkness
It belongs to me
The key to evil is to desecrate the world
The fire within will keep me alive

You'd better hide your flame you step inside your soul
Come the fire take my burning hands
Trying it out
Got to relieve your soul

Under the sky, blow up my mind
If we ally I will return again

Falling higher, thunder and lightning
Falling higher, into the dark
Falling higher, thunder and lightning
Falling higher, into the dark

The time will tell us who's the one to blame
The touch of evil is burning like a flame
Destruction and hate, you know that's my fate

As the windchill blow is searching I alone
A snake flow river by the fury of the dark
So now we're on our way again

Under the sky, blow up my mind
If we ally I will return again

Falling higher, thunder and lightning
Falling higher, into the dark
Falling higher, thunder and lightning
Falling higher, into the dark

Under the sky, blow up my mind
If we ally I will return again

Falling higher, thunder and lightning
Falling higher, into the dark
Falling higher, thunder and lightning
Falling higher, into the dark

Into the dark
Thunder and lightning
Into the dark
Thunder and lightning

Falling higher, thunder and lightning
Falling higher, into the...
Into the dark
