"The End Of Summer"

Visit "[The End Of Summer](#)" on MotoLyrics.com

It's the end, the end, the end of summer
The end, the end, the end what a bummer
Don't wanna wake up early in the morning
Born in the classroom I end up snoring
This is the way things are to stay
Forever single day is a holiday
But it's the end of summer
Can't wait till next year
Let's go, let's go no time to quit
Keep it all together make the best of it
Let's go, let's go, let's keep it right here
Just a little bit of summer can't wait till next year
Don't wanna pass out just go to the rest room
We rather stay in bed yeah that's the best room
Well this is the way things are to stay
Forever single day is a holiday
But it's the end of summer
Can't wait till next year
Let's go, let's go, no time to quit
Keep it all together make the best of it
Let's go, let's go, let's keep it right here
Just a little bit of summer,
Just a little bit of summer
Can't wait till next year
It's the end, the end, the end of summer
The end, the end, the end what a bummer
Let's go, let's go, no time to quit
Keep it all together make the best of it
Let's go, let's go, let's keep it right here
Just a little bit of summer,
Just a little bit of summer
Just a little bit of summer
Can't wait till next year!
