Stand here for me angel  
Oh, little child so broken and wild  
Bear not life on your shoulders  
Just kiss it one last time

Was the music too loud for you  
Too raw to be true  
Were the abstracts too dark for you  
I beg you not to  
Watch the sky so bright  
See all its light fade

Here I am, was it everything you spoke of  
Oh, little angel  
Yeah, here I am, was it everything you've dreamt of  
Oh, little angel

Bow down for me, heavenly one  
Shed not those tears, my little friend  
Fear not God anymore  
'Cause you find him in my arms

Was the volume too high for you  
To touch for the blue  
Were desires too dark for you  
Too good to be true  
Watch the sky so bright  
See all its light fade

Here I am, was it everything you spoke of  
Oh, little angel  
Yeah, here I am, was it everything you've dreamt of  
Oh, little angel

Tell me now how your wings got broken  
Tell me now how your spine got whipped by leather  
Tell me now how your tongue got split  
Tell me all the things you need to drift away

Watch the sky so bright  
See all its light fade

Watch the sky so full of light  
Oh, little angel  
For the last time so bright  
Oh, little angel

Here I am, was it everything you spoke of  
Oh, little angel  
Yeah, here I am, was it everything you've dreamt of  
Oh, little angel
