How can a pure heart fight without resistance  
And I fall never to return, show down, set out to burn  
I shun the day - death is one heartbeat away

No light to shun  
It's rapture it's pain, it's bodies bleeding in the rain  
No light to shun  
Never give in - shut down - set for sin  
Suffering... suffering... Suffering...

I need to taste the tears of the angels to burn (and I  
burn...)  
Light in exile black nexus, godless child  
You have to sleep with deamons to love the wild

No light to shun  
It's rapture it's pain, it's bodies bleeding in the rain  
No light to shun  
Never give in - shut down - set for sin  
Suffering... suffering... Suffering...

You will watch the world bleed  
No light to shun...
