I see the winter in her eyes

As I turn to go

See the pain on her face

A frozen rose

With the toss of her hair

And the bite of her lip

She'll ask me so shy

"Anything left to say?"

And I say

"No, no baby, not this time

Again-

This time it's over

You've got to learn"

Chorus:

Now, darlin' love is cruel

Darlin' love is blind

Love is pain

So cry

Shed a tear today

Shed a tear my baby

Love is pain

I see our love out of reach
Arms intertwined with lies
What shattered the night
Still haunts me in the rain
Now you're lost child, lost
Like a ship on the storm
Your distant eyes
Are shadows of others I've known
Bridge & Chorus
I Love you
Love is pain
