"THE BLOOD OF VENGEANCE"

Visit "[THE BLOOD OF VENGEANCE](#)" on [MotoLyrics.com](#)

We are Descendants of the Ancient Ones The Race
beyond the Wanderers

of Night Who dwell in the Black Spaces between the
Stars From a Time

before Time. Long before this current Dynasty of
Heaven We Reigned And

will Reign again . . . For We contain the Divine Essence,
Made from the

Flesh, Blood and Bone of a God Who walked in Flesh,
and who cut off his

own head . . . Nourished by Fire, Water, Wind, Wrath,
Rage and Tears We

Blossom at the Root of the Tree of Knowledge . . . We
wait and We

remember . . . , for the Blood of Man, is . . . THE BLOOD
OF VENGEANCE ! !
