Ask and you won't be forgiven

This is a blessing in disguise

All of your choices are spoken

You've killed the child in my eyes

I'm gonna see you burn

When in some dark distant future

you'll meet my presence in a song

You'll punch the walls in frustration

Can you hear my voice and say I'm wrong?

I'm gonna see you burn

With the first light I touch your skin

rise above the challenge, the day begins

and the brightnesssss runs to black

fading in the darkness I'm not coming back

Here we live and here now we die

on this mountainside

arms entwined, the chosen the brave

fire wind to take you away like the wrath of God

Ask and you won't be forgiven

This is a blessing in disguise

All of your choices are spoken

You've killed the child in my eyes

I'm gonna see you burn
