Take a look at me now and you see what I mean
My wallet's always empty, my clothes are never clean
Spendin' all my money for records and for booze
And when the record starts to turn, it start to infuse

This is my life, this is my way
Don't live tomorrow but today

I bang my head
Till I'm dead
Don't you know
I'M FUCKING METAL
Shout it out
Loud and proud
Can't you see
I'M FUCKING METAL

Long hair, denim, spikes and leather, patches and
tattoos
And when you start to mess with us, you will get a
bruise
But if you're into metal, the case is very clear
First we do the fighting and then we'll have some
beer
