My life seemed senseless, boring and absurd.
But I knew that's not a life for me
One day I've heard that song,
It was fast and loud and mean
And this song made a change deep in me
For all to see

Drinking & n banging
And Metal to the end
So it's got to be
Drinking & n banging
And spit on every trend
Makes me know I'm free

Leather and spikes, tonight we strike
Gods of Metal hear my call
Patches and chains, music that maims
So catch your breath - Metal till death

Playing & n banging
For you here tonight
Bangers side by side
Drinking & n banging
I know you want the same
So let's do it all damn night
