"There You Go"

Visit "[There You Go](#)" on MotoLyrics.com

and you say that they're your reasons
as you close your eyes and rest
holding on so tightly to the things that you know best
taking nothing here for granted
though you know some things are free
but you know jesus baby darling
you know what you need

so walk on walk on you can feel it
you know my love how to deal it
jesus poured into your cup
come on baby drink it up

there you go
i didn't even see you move your eyes
there you go
who's watching you tonight
there you go
the stars slide across the sky
there you go

and you say that there's no answers
to the problems that i seem to find
this isn't time for speaking
this is the time to clear my mind

it's been three nights now in the rain

and now i sit and watch the stars just slip and slide
they slip and slide across the sky
