I'm looking into your eyes
I cant believe what I see
I am just your lover
Who cant believe
You could lie so easily

Chorus:

I was bound and determined
To love only you
Bound and determined
To be true to you
Bound and determined
With all of my might
Bound and determined
Until tonight

How could you
Leave her side
Kiss her and say goodnight
Then hold my heart in your hands
Oh its more than I can stand
Bound and determined
To understand

Chorus again

Yes I know her name
She's not the one to blame
I dont blame her
She's not the one who lied to me
You should be ashamed

Chorus again
