They met in the park he walked her home  
And he ended up up staying all night  
But they woke up in love and it looked like the hero  
Would stay for the rest of his life  
But then the trouble began another woman walked in  
And that's when the plot took a change  
And I broke down and cried when the man in the movie  
Oh he left her alone in the rain  
I had to cry for the lady when her lover decided to  
leave  
I couldn't take it so I left the movie the end was too sad  
for me  
[ guitar ]  
She should have known men come and they go  
That's been the story right from the start  
And I sympathize I know how it feels  
To have your heart torn all apart  
Cause baby since you've been gone I've been wasting  
my nights  
Sittin' in these picture shows  
And I've always been a sucker for a good love story  
Oh but this one hit too close to home  
I had to cry for the lady...  
I had to cry for the lady...
