### "I'll Think About Shadows"

Visit "[I'll Think About Shadows](#)" on MotoLyrics.com

I've given second chances to all of my friends  
Forgiven my children all that I can  
Its really no big deal  
It gets easier all the time  
It gets alot easier  
Time after time

I'll think about shadows  
Another day  
Shadows are always  
Getting in my way  
They're always with us  
Come rain or come shine  
I have decided to make friends of mine

When you get older  
You see its just a game  
Your in or your out  
Excuses can be so lame

Who cares anyway  
Its really no use  
Just take the medicine  
But take it with juice  
When I get to heaven  
I know just what I'll say  
When asked about my troubles  
Along my way  
I was busy being a blessing  
Spreading good cheer  
I wont have my shadows cause  
They wont be here

Chorus
