"Long Lost Love"

Visit "[Long Lost Love](#)" on MotoLyrics.com

Tell me mister please tell me have you seen
Have you seen my long lost love
It's been gone so many days I've looked every place
Got to find my long lost love
He used to come here every now and then
When we'd have one of our terrible fights
I wish I could forget but I'm filled with regret
That I lost my long lost love

If only I'd had sense enough to be true he'd be here in
my arms right now
But I was such a fool I broke every rule and I lost my
long lost love
[guitar]
He used to come here...
I've got to find my I lost my long lost love
I've got to find my I lost my long lost love
