Every morning theres a flower
Growing in the meadow breeze
I can smell the sweet perfume
Waking from this lovers dream
Ever since the day I met you
Smiling at me so it seems
Just like sunshine on a flower
Blooming in our lovers dream

I remember picking flowers
I was all alone and blue
In the early morning hour
I share my lovers dream with you

I will love you in the morning
As you hold me tenderly
I cant wait until tomorrow
Living in our lovers dream
