Well I know a place when love comes easy
And I know a man who meets me there
He takes my hand oh he gently leads me
And we go up to the room at the top of the stairs

I close the door and he pulls the curtains
When we make love it's a private affair
I've been around so I know for certain
There ain't no room like the room at the top of the stairs

When we climb up the stairway to heaven
Well we find love waiting there
And right at home just me and my baby
Oh the loving's good in the room at the top of the stairs
[guitar]
Yeah I know a place...
Oh the loving's good in the room at the top of the stairs
