It's not your kiss I miss
It might be you
But I could be crazy
Ah ha
It's not your tough so much
As when it's gone
There's something going on
Ah ha

I tell myself
It's nothing new

Everybody, everybody
Find you love, your love, your love, your love

It's not the things you sing
When you get it wrong
I love that you sing along
Ah ha
No, no, it's not your kiss I miss
I think it might be you
And it's driving me crazy
Ah ha
