Sit with the paper and coffee
A different day
The same type face
The world's not the way that it should be
The funny page ain't so funny
Yes, I've been waiting
Don't keep me waiting
Miracles are hard to find
(If you want some time, you can take all mine)
Miracles take their time
(If you want some time, you can take all mine)

Stare at the screen without blinking
A drive-through deal
A new short fall
Flick through the scenes without thinking
Remote control
Who could ask for more?
Yes, I've been waiting
Don't keep me waiting
