Barricade abandoned
I'm armed but standing down
Meet me as the smoke clears
On the middle ground
Measure up the bruises
The marks I've left on you
I'll show you where you wounded
Where your aim was true

Love, love, love
A human emotion
Can't get enough
Oh how it makes me feel
Love, love, love
A human emotion
Can't get enough
Oh how it makes me feel

Talk about distracted
Miss the view for trees
Waiting games well acted
Bring you to your knees
Motorcars and highways
Drag me far from here
Where you are my heart is
Don't be home late
