Visit "[What You Do](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Im not a stone, I bleed just like you do  
Im flesh and bone, I feel just like you do  
No part of me can be immune  
Would like to be but still I bruise  
Haven't got a lot to lose  
Don't be afraid take it like a man  
Please behave the same way if you can  
No bitter tongue will get to me  
And if it did I wont let you see  
Show the bastards what you mean  
So close I can taste it  
Im ready to please  
Too close now to fake it  
Pretending is sweet  
Im down on my knees Im dying to  
Show the bastards what you do
