

Stepa "Helpless"

Visit "[Helpless](#)" on MotoLyrics.com

This time i stand on top
I won't stop
And I won't pay the price for every line you've crossed
A feeling we can't recall so stand up and watch me fall

I'm looking to nowhere
I've been fighting for too long
I will find a way take my heart away from you
Then I won't feel so helpless

You dragged me through the mud
Stepped on my spine
Deny I'm flesh and blood so you can ease your mind
Don't comply to the rules
I defy just to collide

I'm looking to nowhere
I've been fighting for too long
I will find a way take my heart away from you
Then I won't feel so helpless
So helpless
I wont comply..
I wont..

Set to live my life without a light to cast
A shadow on a memory

I'm looking to nowhere
I've been fighting for too long
I will find a way take my heart away from you
Then I won't feel so helpless
I will find a way take my heart away from you
Then I won't feel so helpless
