"I Will Survive"

Done a lot of things that I'm not so proud of
Took a lot of turns, that turned out wrong
That's a worn out song
Day by day, moment by moment taking my chances
Trusting my heart, It wasn't too smart
Lonely and lost as I could be
No wait it's up to me

(Chorus)

I will survive, I will endure
When the going's rough, you can be sure
I'll tough it out, I won't cave in,
If I'm knocked down I get up again
As long as my dream's alive, I will survive

Letting go of my bad habits
Hanging on to hope, for better times, I'll be fine
Learnin'to sleep in the bed that I made
Laying the blame where it belongs, I've gotta be strong
Tear drops no one sees but me
I won't stop
I'll always believe

(Chorus until fades)
