Wrap me up in your arms
Cover me with all your charms
Kiss me tenderly on my lips
Cover me with love to the tips
Dance with me right till the dawn
Make me feel like I was born again
Sing love songs to me all night
That's how you make me feel right

Cos I'm your babygirl, babygirl
You love me more each passing minute
Babygirl, babygirl
My mind is blank when you are in it
Babygirl, babygirl
I love you
Cos I'm your babygirl, babygirl
Babygirl, babygirl

Ring me up and talk all night
When you're around, you bring the light
Sweet talk me till I go insane
Your love for me controls my brain
Moonlit dinners by the sea
Shows you what you mean to me
Candlelight right through my heart
I don't think that we will ever part

Chorus

Hold me, kiss me
Love me through the night

Chorus
