Naughty, so naughty  
So, so, so naughty

Momma said that you were trouble  
But nothing could ever burst our bubble  
You're always breaking the rules, deny the law  
But it's that danger that makes me want you more

Naughty, oh it makes me feel upside down  
Nasty, ooh it spins me round and round  
Baby, you're no good for me  
But baby, you stole my heart from me

I told my mum not to worry 'bout me  
Cos I get home very safely  
It's like I'm addicted to his heart  
Which makes me feel that this could be love

Chorus

A little less worry, a little more time  
I need you to realise that he is mine  
A little less lectures, a little more love  
He must have come from above

Chorus
