I love your hair and that small twinkle in your eyes,
baby
I love your giggles, faults and hiccups once in a while,
baby
I love you more and more and all the long cold nights,
baby
And now you're gone and I really miss you and I need
you, baby

I cry and feel like I could die without you
And now I realise why I love you
It was right here in my face all the time
I need you

I miss the way you used to hold me and you'd kiss me,
baby
I miss the moments when I'd trip and you would catch
me, baby
I miss having someone to hold me when I'm feeling
lonely, baby
And now I don't think I could love without my baby

Chorus

I need you
I need you to be
I need you to be here with me
I need you to be here with me through every single
night

Chorus
