

Steph "Party Girl"

Visit "[Party Girl](#)" on MotoLyrics.com

The night begins now baby
You know you drive me crazy
I've always waited for this single night to come back
And now it has and now I can't turn back

I'm a party girl
Taking over this world
With my funky beats
Everybody sees me
I'm a party girl, I'm a party girl
Taking over your world, taking over your world

And now the house is shaking
And the walls are breaking
Turn all the music up
Everybody jump

Chorus

The night begins now baby
You know you drive me crazy
You drive me crazy

Chorus
