Why are you scared of me
Are you blind, cannot see
That I am only here to help
Why are you scared of me?
It must be mentally
Cos I haven't hurt you from what I felt

I'm just here as your friend
Can't you just let this end

Why are you scared of me
Can't you just be happy
Just let your horrid guard down
Why are you scared of me
Can't you just let it be
Just stop this now, don't make a sound

Chorus

This is just stupid cos I've wasted enough time
I was willing to help but you just turned it down
I might as well just leave and leave you to this mess
You clean it up, I'm gone

Chorus
