Your distorted voice and this loud music !
My lurking feeling and this loud music !
I cannot escape, it's my confusion
Your hair sews dreams for me, embracing my being

I give my hands for your cry
My heart is being delirious but leave it like it was

The climbing of words and this loud music !
The touch of you and this loud music !
I cannot swim, it's my love
Your kisses make me cry, caressing my being

I give my senses for your cry
My heart is being delirious but leave it like it was

The trembling when you leave and this loud music !
The chaining of the eyes and this loud music !
It's my longing for this loud music
Your embrace gives me time, forgetting my being

I give my pain for your cry
My heart is being delirious but leave it like it was, like it
was.
