"No Escape"

Nowhere to run, nowhere to hide
I can't cure this pain inside
What can I do when your love is gone ?
All I can do is just to live on

No Escape from you heart, no Escape from your lips
No Escape from your body and your fingertips
No Escape from you baby all night and all day
No Escape from you darling, what else can I say ?

What can I do without your laughs ?
Honey your love what ever the cost
How can I hide these tears inside ?
What can I do when your love died ?

No Escape from your heart, no Escape from your lips
No Escape from your body and your fingertips
No Escape from you baby all night and all day
No Escape from you darling, what else can I say ?
