Here's a word or two to tell you I exist
Here's a word for you to tell you I still do
Put them in your mouth and say like I do
I exist, I exist, I exist

Here's a note or two to tell you that I love
Here's a note for you to tell you I still do
Put them in your mouth and sing like I do
Yes I love, yes I love, I love

Here's a song for you to tell you how live fades
Here's a song for you to tell you that's OK
I put it in my mouth and try to believe it's true
But I don't, I don't, no I don't

Here's a word or two to tell you I exist
Here's a word for you to tell you I still do
Put them in your mouth and say like I do
I exist, I exist, I exist

That's me don't be scared, swallow.
