"This City"

Visit "[This City](#)" on MotoLyrics.com

Walk with the lights of this city
My feet ask the street, what does loneliness know ?
My heart touches shadows of this city
Rain gives the rhythm to this night

What does loneliness know ? What does darkness hide
?
What does sadness miss ?
Where do the thoughts of this night end ?

Walk with the lights of this city
My eyes take the faces of this night
Walls hold the stories of this city
Wind holds the haste of this night

What does loneliness know ? What does darkness hide
?
What does sadness miss ?
Where do the thoughts of this night end ?
