Today I put my heavy boots on to try to keep me down  
No matter what I do I'm flying high on thoughts of you  
Chase the rainbow in my mind  
Each time I see you butterflies dance and I feel light  
inside  
Carried off on coloured wings I feel the strength you  
bring  
Like a kite in strong wind

You are the break in my routine  
You are my favourite daydream  
You are the break in my routine  
You are my favourite daydream

With pockets full of pebbles I'm writing your name in  
the sand  
The turning tide will wash all of these words away  
What I'd give to hold your hand  
Don't want to walk on parallel lines if only I'd come  
clean  
Feel the sun on my face, all that's missing is you  
Across the waves sirens sing

You are the break in my routine  
You are my favourite daydream  
You are the break in my routine  
You are my favourite daydream

Oh close your eyes  
Oh close your eyes  
Oh close your eyes  
Oh close your eyes  
Oh close your eyes
