"Electric Youth"

Visit "[Electric Youth](#)" on MotoLyrics.com

Zappin' it to ya
The pressure's ev'rywhere
Going right through ya
The fever's in the air
Oh yeah, it's there!
Don't underestimate the power
Of a life time ahead
Electric youth
Feel the power
You see the energy comin' up
Coming on strong
The future only belongs to the future itself
And the future is electric youth
It's true you cant fight it
Live by it, the next generation
It's electric
We've got the most time to make the world go 'round
Oh can you spare a dime?
Place your bet on our sound
Come back to town
Dont lose sight of potential master mind
Remember when you were young
Electric youth
Feel the power
You see the energy comin' up
Coming on strong
The future only belongs in the hands of itself
And the future is electric youth
It's true you can't fight it
Live by it, the next generation
It's electric
We do what comes naturally
You see now wait for the possibility
Dont you see a strong resemblance to yourself?

Don't you think what we say is important?
Whatever it may be
The fun is gonna start with me
'Cause I'm bringing it back
Electric youth
Feel the power
You see the energy comin' up

Coming on strong
The future only belongs to the future itself
And the future is electric youth
It's true you can't fight it
Live by it
The next generation
It's electrifying
Electric youth
Feel the power
You see the energy comin' up
Coming on strong
The future only belongs in the hands of itself
And the future is electric youth
It's true you can't fight it
Live by it
The next generation
Electric youth
Feel the power
You see the energy comin' up
Coming on strong
The future only belongs to the future itself
And the future is electric youth
It's true you can't fight it
Live by it
The next generation
Inflation, flirtation, relaxation, elation
Generation of an electric youth
