Verse 1:

I love you

I don't wanna hear a sad ballad tonight amidst the
stormy weather

I love you

We have run away for caresses in the night, coming to
life

It's not like we were handed everything on a silver
platter

Nothing but two stray cats shaking in the dark,

Raking through the leaves and looking for a place just
a little bit better,

Flickering our eyes in the thick of the night, following
the sparks

Ooo-ooo-oooh

Chorus:

I've got to tell you now my darling, as we hold each
other upon

The creaking woodenboards that we rest our bodies on
If we just close our eyes together now, that will get us
through somehow

That our love won't scar from any sad song they sing,
or the troubles they bring

Verse 2:

I love you

There are secrets into young and frail lovers too young
and frail to ever be touched

I love you

How could we ever hope to find each other the way we
live today?

Dreaming of a love that wraps itself around everything
Dreaming of it only to have them clip our wings

All of the times that you ask 'Do you love me with all of
your heart?'

How, if I ever took my love away, it would just tear you
apart

Ooo-ooo-oooh

Chorus

End:

If we just close our eyes together now, that will get us
through somehow

That our love won't scar from any sad song they sing,
or the troubles they bring

Mmm-mm-mm-mmmm
