"When You Know"

Visit "[When You Know](#)" on MotoLyrics.com

Steal a glance at what we've found
As loves light shines around us

Gathered here today to celebrate
Our friends and family form the masses

Life makes it easy to forget
What is really important

The bonds that we tie
The tears that we cry
And how we grow along the way

The hands we hold
Clears the future to unfold
For this is your special day
Your special day

Plans and sweat get things done
And we all know who's going to pay

Crucial decisions for the girls to make
We've learned to smile wide and say okay

All these exciting new projects
Made today turn out perfect

I just want to see you smile
